DS 217

Electronic pressure switch - transmitter (0 ... 6 / 600 bar)

Measured pressure																				
gauge		7	8	P																
Input [bar]																				
6,0		6	0	0	1															
10		1	0	0	2															
16		1	6	0	2															
25		2	5	0	2															
40		4	0	0	2															
60		6	0	0	2															
100		1	0	0	3															
160		1	6	0	3															
250		2	5	0	3															
400		4	0	0	3															
600		6	0	0	3															
Customer		9	9	9	9															
Analogue output																				
Without																				
4 ... 20 mA / 3 wire																				
Customer																				
Switching output																				
1 switching contact																				
2 switching contacts																				
Accuracy																				
0,50%																				
Customer																				
Electrical connection																				
M 12 x 1 (5-pin) (Binder 713) / plastic version (IP 65)																				
Customer																				
Mechanical connection																				
G 1/2" EN837																				
G1/4" EN 837																				
1/4" NPT																				
Customer																				
Seals																				
without																				
Customer																				
Special version																				
Standard																				
oxygen application																				
Customer																				

0,-...without additional charge

On request...in accordance with the producer

Standard EN 837-1/-3 corresponds to original Standard DIN 16288

Additional charge for calibration is not subject to reduction.
